

# Gary Felix A

## Web Developer

I'm passionate about creating responsive and interactive web applications that deliver an exceptional user experience. I am interested in web development, especially in Frontend, and also adaptable to other roles because I'm an active learner. I will improve my skills from what I am experiencing and based on that I will improve the organization's goals.

### Projects

#### Portfolio using Angular.js

- Technologies Used - Angular(basics), HTML5, CSS3, Javascript.
- This project enhanced my practical knowledge of fundamentals in the Angular Front-end Framework
- Link- <https://garyfelix-portfolio-angular.netlify.app/home>.

#### AGF Xpense Xplorer using React.js

- Technologies Used - HTML, CSS, React.js, Firebase
- This project cemented my react foundation concepts, routings, and usage of Firebase.
- Link of this project: <https://agfxpenseexplorer.netlify.app/>.

#### Customer Care Registry - College Final Year Project

- Technologies Used - Python, Flask, HTML5, CSS3, Javascript, ibm\_db2, Docker, Kubernetes, SendGrid API for Email, PIP Build tool.
- This is our college project and from this project, I have gained a few technical skills. They are HTML5, CSS3, Javascript, Docker, Python, and Flask (basics).
- In this project, I have worked in the area of Front-end. In that, I have gained practical knowledge of HTML5, CSS3, and Javascript.
